

12 February 2016

Dear Parent/Carer

RE: OFSTED Inspection Report – 26 & 27 January 2016

Please find enclosed a copy of our OFSTED inspection which took place on 26 & 27 January 2016.

When I wrote to you on 29 January 2016 I explained that the school had been taken out of the special measures category following the inspection. We are obviously delighted with this positive outcome.

As is mentioned in the report, the inspectors noted the school is 'rapidly improving'. However, we are not yet an outstanding school but we are well on the way to achieving this aspiration.

High expectations for everyone within the school and our 'Aspire to be more' focus spells out clearly that nothing less than the best for the students of the academy will do.

We look forward to continuing this improvement and becoming the outstanding school which this community and its children deserve.

I would like to take this opportunity to thank all staff, students, parents and governors for their tremendous hard work in our achievement throughout this period and for your continued support of the academy and of your child's learning. The strong partnership created between yourselves, the school and our students can only exist through your commitment to helping us all doing our best for your child. If you have any questions please do not hesitate to contact myself or a member of the senior leadership team.

Yours sincerely

**Ms K Dixon
Headteacher**
