

22 July 2016

Dear Parent/Carer

**Re: Food Technology – Practical Cookery Sessions September 2016**

In September your child will receive food technology lessons fortnightly throughout the academic year. Ideally we would like these lessons to be as practical as they can be to help your child to become confident at preparing food. This will promote a healthy lifestyle in their adult life.

Our recipes are designed to be useful for the whole family. We are aware that bringing ingredients into school can be challenging – teenagers bringing home last minute lists of required ingredients and/or items. To alleviate this we have designed a “pay in” system that will allow your child to have stress free food ingredients ready and waiting for them in class.

The “pay in” system will include:

- All the basic ingredients for each practical
- A container to take the finished product home

The “pay in” scheme is £12.50 for the whole year and should be paid via parent pay or barcode before 1<sup>st</sup> September 2016. If you require a barcoded letter please contact the finance office during the school holidays. Should you decide not to use the “pay in” scheme your child will need to provide the set list of ingredients for each lesson.

If you require any further information please do not hesitate to contact me at the school.

Yours sincerely

F Oakes
