

Year 10 History

Learning Programme 1

The LORIC skill focus for this LP is: LEADERSHIP. The Moral Values foci for this LP are: HUMILITY and COURAGE.			Literacy Non-Negotiables: • Capital letters must be used at the start of sentences and for the first letter of proper nouns • Full stops must be used at the end of a sentence • Question marks must be used at the end of a question • Apostrophes should only be used for possession or omission • Days of the week and months must be spelled correctly • Key words must be spelled correctly • Vocabulary to be taught using the Frayer model
Courage - Acting with bravery and overcoming fears. I will show courage by answering a question in class even when I'm not 100% sure of the answer.			
Humility - Having a modest view of oneself. I will show humility by admitting mistakes and asking for help when needed.			
What will I be learning about in this Learning Programme? The development of the health of the people since pre-historic times, the key themes that have helped or hindered this development and brought change or continuity - from war to the role of the individual. Where have I seen this learning before? The Roman public health system after invasion, religion and its impact on life and beliefs in the Middle Ages, the Public Health Acts in Victorian England and war. What could I use it for? In the completion of the topic, to compare the health of the people up until the modern day, for your GCSE examinations, beyond education to understand the world we live in and the reactions to illness and disease and how to remain healthy.			
In LP1.1, I will know: the expectations in history; the key factors across the Health topic and the importance of each for development; what health was like before 1250.	31/08/26 - (WK 1)	Frayer Model Words development	Homework List and add a description for the 7 key themes in our Health topic.
In LP1.2, I will know: beliefs of causes of illness; the treatments of illness and disease; what surgery is and looked like in medieval times.	07/09/26 - (WK 2)	Frayer Model Words treatment	Homework Create a mind map for pre 1250 beliefs about illness.
In LP1.3, I will know: beliefs about causes of illness as the Renaissance begins - miasma; the developments of causes of illness in the Industrial period - spontaneous generation; how the germ theory was developed in the modern time period. Extended Task.	14/09/26 - (WK 1)	Frayer Model Words spontaneous generation	Homework Explain the importance of Hippocrates and Galen to health. Complete a PEE paragraph for each.
In LP1.4, I will know: approaches to treatment in the Renaissance period; how industrial changes treated disease; the impact WW1 and WW2 had on treatment of illness and disease.	21/09/26 - (WK 2)	Frayer Model Words Renaissance	Homework Create a fact file for beliefs about causes of disease throughout the time.
In LP1.5, I will know: the importance of the NHS on the treatment of disease and illness; how each factor contributed to treatment throughout the time periods; what how Renaissance surgery differed from Medieval surgery.	28/09/26 - (WK 1)	Frayer Model Words factor	Homework Mind map the factors and how they impacted treatment of disease.
In LP1.6, I will know: the factors driving forward the improvement in surgery; the key people improving surgery in the Industrial period - Simpson and Lister; how surgery improved in the modern period. Extended Task.	05/10/26 - (WK 2)	Frayer Model Words surgery	Homework Create fact files about the importance of 3 key figures so far.
In LP1.7, I will know: the development of different types of surgery; how each factor contributed to the improvement of surgery throughout the time periods; how to answer an exam question on themes and factor importance.	12/10/26 - (WK 1)	Frayer Model Words theme	Homework Explain which factor is the most dominant in the Medieval period.
Resources to support learning: Teams page, Seneca, BBC bitesize, school library and ask your history teacher about further reading.			
FFET Award Challenge for this Learning Programme: Create flash cards on the different themes and factors of health development.
